Bulletin 0219

Dated August 1 2019

Drivers are to come to the grid with their front nose cones detached.

The Driver ONLY is to fit it in front of the Grid Marshals by hand pressure only. No tools of any kind are to be used to secure the clamps.

If a Driver can not secure their own clamps, it will immediately evoke a technical infringement and the Driver may be required to start from the rear of the grid. Parents of Junior and Cadet Drivers should ensure that the clamp pressure is such that the driver is able to comply.

This Bulletin Will Expire Sunday 6th October 2019 7pm

Fred Causer

Race Director CKRC.
