

2026 WESTERN FINAL
AUGUST 7 - 9, 2026
STRATHMORE, AB

Event bulletin 1

Date : August 5th, 2026

Targeted regulations : 2026 RMC Sporting Regulation – Canada and Western Final Event Supplementary Regulations.

Questions from competitors have shown us that the rules regarding the event format may be causing confusion. Article 17.9 of the 2026 RMC Sporting Regulations specifies the awarding of points for pre-final and final races. These points apply when the event is part of a championship but not when it is a standalone event such as the Western Final.

To clarify the event format, here is the procedure that will be followed during the event:

- a) The qualifying results will determine the starting grid for each heat, barring any penalties (e.g., equipment change);
- b) A ranking after the heats will be determined in accordance with the scoring rules set forth in Article 17.9. This ranking will determine the starting grid for the pre-final race. In the event of a tie between one or more drivers, the qualifying time will be used as a tiebreaker.
- c) The results of the pre-final race will determine the starting grid for the final.
